

An Angel In My Heart

Tekst og musik Jette Torp

I can` t believe it's true
I` m fallin` deep and blue
Not this time - not this time

I` m crawlin` through the night
Reachin` out for light
Not this time - not this time

I` d already given up the chance
Of findin` true romance
But this time - oh this time

All my reservations were in vain
When you gently called my name
From the first time - the very first time

There must be an angel in my heart
Guidin` me in and out of love
And you will be sorry
There`s gotta be something in between
The sorrow and happiness I see
And you will be sorry

I promised myself
Stay on you own and do well
No next time - no next time

But even though my wounds need time to heal
I need to taste a love that`s real
One more time - just one more time
