

# Beautiful Day

*Tekst og musik Jens Rugsted*

Wake up to a wonderful morning!!!

Sunshine coming through my window  
There`s nothing like the morning light  
I`m slowly rising up from my pillow  
Wondering if you slept alright

Cause since we`ve been together  
The good lord has been so good to me  
May it go on forever  
From now on till eternity

Wake up to a wonderful morning  
Wake up to a beautiful day  
Who said mother nature is calling  
There`s nothing here to stop me when I`m feeling this way  
Wake up to a wonderful morning  
Welcome to this beautiful day  
I hear mother nature is calling  
I feel it`s gonna go my way

Driving down the road on my way to work  
Feeling warm and satisfied - yeah  
`Cause when you`re blessed with a job that you love  
Expecting something new every day

Being far away and completely lost  
Playing around in a fantasy land  
Later coming back to reality  
Waiting for a new day to come
