

It's Not Enough

Tekst og musik M. Malamet /D.Lasley/D.Schneider

Well you lied and lied
And I cried and cried
But I kept it all inside
Now I can't pretend
We're not even friends
Though I tried, how I tried

We went round and round
We never touched the ground
You were the best I'd ever found
Then the silence grew
Till one day I knew
It takes two to keep love around

Cause It's not enough
And it never will be
I've got to turn and face the fact
It's not enough to love somebody
They've got to love, love, love you back

In my dreams I see
Our love so easily
Though we just can't change reality
And in time it's true
I'll get over you
And you, you'll get over me

Cause it's not.....

And in time it's true
I'll get over you
And you, you'll get over me

Cause it's not
