

Just a little bit

Tekst og musik Jette Torp

Oh oh, hey ah ah hoo hoo
Oh oh heyyy - Just a little bit that's all I say
Oh oh, hey ah ah hoo hoo
Oh oh heyyy - Just a little bit that's all I say

I see people passin' by
They're somehow so familiar
Nice and neat and new
Like photographs in a book

But I look upon myself
And find it so similar
Got my house - got my work
I got my future predetermined

I think of all the fun we'd have
If we threw it all away
Pretending we were more than this
Just a little bit that's all I say

Oh oh, hey...

I'm so tired of being nice
Tired of being decent
It's a sensuous deceit
But I just wanna dance I wanna be free
So let's get all together
Let's make a celebration
We got life - we got time
We got our own history of a kind

And think of all the fun we'd have
If we lived it out one day
Pretending this is all there is
Just a little bit that's all I say

Oh oh, hey.

Cross my heart - we could be so much more than this
Seize the day - just let go - oh

Oh oh, hey...
