

Like Someone In Love

Tekst og musik Michael Kolster

Every little time that you talk
Every little time that you walk
I just love you more than words can tell

Every little time that you kiss
Every little moment of bliss
I don't ever want to see it over

Because you're in me
Forever we'll be
Like someone in love
Because I'm in you
We do what we do
Like someone in love

Every little smile on your face
Adds another star in your grace
Every little move you make is beautiful

Because...
