

# What if I do

*Tekst og musik Buckle/Aherne*

You're sure of all you say and all you do  
There's never any learning left for you  
But you could be surprised by the truth

How can you be sure that I'm the one  
When everything I ever did was wrong  
I never left a light on for you

What if I break your heart  
Tearing it all apart  
Leaving it broken and bleeding  
What if I don't you  
What if I just don't come through  
What if I don't start feeling  
What if I do

Now standing on a pedestal I am  
How could you ever think it's love you've found  
You'll never be hurt if you don't feel

What if...

Cause I'm always the one  
I'm standing so solid and strong  
Standing alone though lovers come and lovers go

I never jump till I know how deep it is  
And I never take unless I give  
So don't fool yourself over me

What if I break your heart...
