

# You`ve Got That Smile Upen Your Face

*Tekst Jette Torp og musik Jan Glæsel*

You've got that smile upon you face  
Reminding me of how things used to be  
The sunshine in your eyes  
Gives me all the reasons why  
You're still the love of my life

When you've got that smile upon your face  
I know it's right and true  
It wakes up my love for you  
The glow that's in your eyes  
I don't even ask why  
When you've got that smile upon your face

But through the years love disappeared  
We locked it up in a shell  
We lost the sense of joy we knew so well

I wonder when it all began  
I wonder if we knew  
That love held a shell won't come trough

But you lost that smile upon your face  
The wrinkles round your eyes  
They vanished with goodbyes  
The reason from the start  
Didn't last and love went apart  
When you lost that smile upon your face

Now you've got that smile upon your face - again  
Undoubtedly  
It's all coming back to me  
`Cause I believe it's real  
What was broken time will heal  
When you've got that smile upon your face  
You've got that smile upon your face
